INDEX TO VOLUME 10

Abstracts of papers, 35th Annual Meeting
  Author index, i
  Biochemistry, 153
  Corrections and additions, 542, 688
  Immunology, 400
  Nutrition, 376
  Pathology, 349
  Pharmacology, 275
  Physiology, 3
Adaptation to cold, 543
Allison, J. B. Interpretation of nitrogen balance data, 676
Annual Meeting
  Cleveland (1951), 427, 541
  New York City (1952), 689
Antibodies
  fluorescent, 558
  formation of, 562
Antigens and antibodies, symposium, 553, 558, 560, 562, 564, 568
Antigens
  azoprotein tracers, 564
  labelled, 560
Antitissue antibodies, 568
Assimilation, efficiency of, 622
Author index, program of annual meeting,
Azoprotein tracers, 564

Bacteriophage
  intracellular growth, 591
  reproduction, 582, 591
Biochemistry of growth, in insects, 546
Biological Chemists, Society of
  Abstracts, 1951 meeting, 153
  Constitution and By-laws, 704
  Officers, 702
  Program, 1951 meeting, 457
  Symposium on cytochemistry, 629
Bukantz, S. C., 553
By-laws, Federation, 694

Caloric intake and protein utilization, 660
Carbohydrates and protein metabolism, 660
Cell components
  enzyme distribution, 646
  fractionation, 640
  localization, 629
  nucleic acids in, 654
  separation and properties, 640
Chargaff, E. Structure and function of nucleic acids as cell constituents, 654
Cleveland Meeting (1951), 427, 541
Cohen, Seymour S. Biochemical studies on multiplication of bacterial viruses, 585
Cold adaptation, 543
Constitution and By-laws, Federation, 694
Coons, Albert H. Fluorescent antibodies as histochemical tools, 558
Corrections to March issue, 542, 688
Council and Committee Meetings, Directory, 525
Crampton, C. F., 560
Cytochemistry, 629, 640, 646, 654

Dammin, G. J., 553
Deceased members, 811
Directory of special meetings, 525
Dixon, F. J., S. C. Bukantz, G. J. Dammin and D. W. Talmage. Fate of I^{131} labelled bovine gamma globulin in rabbits, 553
Doermann, A. H. Intracellular phage growth as studied by premature lysis, 591

Energy, demand and supply, 602, 611, 622, 629
Enzyme distribution in cells, 646
Executive Committee, Federation, 691
Exhibits, 1951 meeting, 519

Fats and protein metabolism, 660
Federation
  By-laws, 694
  Deceased members, 811
  Executive Committee, 691
  Former Executive Committees, 691
  Honorary members, 722
  Joint Session, 428, 543, 595
  Meetings, Cleveland, 427, 541; New York City, 689
  Membership list
    Alphabetical, 722
    By location, 813
  Placement Service, 684, 696

Geiger, E. Extra caloric function of dietary components in relation to protein utilization, 670
Geographical list of Federation members, 813
Ginsberg, Harold S. In vitro reactions of pneumonia virus of mice (PVM), 570
Globulin, gamma, 553, 564
Growth
  biochemistry of, in insects, 546
  intracellular, bacteriophage, 591
  and penetrating radiations, 595

Haurowitz, Felix, C. F. Crampton and Raymond Sowinski. Immunochemical studies with labelled antigens, 560
Hearon, J. Z. Thermodynamic principles as applied to the analysis of biological systems, 602

Hemagglutination by viruses not specifically elutable, 570, 573, 579
Himes, M., 629
Hogeboom, G. H. Separation and properties of cell components, 640
Honorary members, Federation, 722
Hurlbert, R. B., 646
Hutchens, J. O. Machine efficiency of assimilative processes, 622

Immunologists, Association of
Abstracts, 1951 meeting, 400
Constitution and By-laws, 719
Officers, 719
Program, 1951 meeting, 511
Symposium on growth of bacterial virus in the host cell, 582
Symposium on hemagglutination by viruses which do not specifically elute, 570
Symposium on labelled antigens and antibodies, 553
Insect growth, biochemistry, 546
Irving, Laurence. Physiological adaptation to cold in arctic and tropic animals, 543

Joint Session
Papers, 543, 595
Program, 428

Kruse, H., 564

Localization of substances in cells, 629
London, I. M., 562
Luria, S. E. Mechanism of bacteriophage reproduction, 582

McMaster, Philip D. and H. Kruse. Behavior and persistence of azoprotein tracer antigens in mice, 564
Membership, Federation
Alphabetical list, 722
Deceased members, 811
Geographical classification, 813
Honorary members, 722
Summary, 811
Metabolism
of gamma globulin, 553
of protein, 660, 670
Metamorphosis, biochemistry of, in insects, 546
Motion pictures, program, 428

Nerve function, factors in, 611
New York City meeting (1952), 689
Nitrogen balance and protein utilization, 676
Notes on 1951 Annual Meeting, 541
Nucleic acids, 654
Nutrition, Institute of
Abstracts, 1951 meeting, 376
Constitution and By-laws, 717
Officers, 716
Program, 1951 meeting, 503
Symposium on utilization of protein, 660

Ornstein, L., 629

Pathology, Society for Experimental
Abstracts, 1951 meeting, 349
Constitution and By-laws, 714
Officers, 713
Program, 1951 meeting, 495
Pharmacology and Experimental Therapeutics, Society for
Abstracts, 1951 meeting, 275
Constitution and By-laws, 709
Officers, 708
Program, 1951 meeting, 479
Physiological Society
Abstracts, 1951 meeting, 429
Constitution and By-laws, 699
Officers, 697
Program, 1951 meeting, 429
Symposium on demand and supply of energy for function, 602
Placement Service, Federation, 684, 696
Pneumonia virus reactions, 570
Pollister, A. W., M. Himes and L. Ornstein Localization of substances in cells, 629
Potter, Van R., R. O. Recknagel and R. B. Hurlbert. Intracellular enzyme distribution; interpretations and significance, 646
Pressman, David. Radiolabelled antitissue antibodies, 568
Protein antigens, 558
Protein metabolism, 660
Protein utilization
effect of dietary components, 670
influence of non-protein calories, 660
and nitrogen balances, 676

Radiation, effects on growth, 595
Radioactive compounds, 553, 560, 568
Ranney, Helen M. and I. M. London. Antibody formation in surviving tissues, 562
Recknagel, R. O., 646
Reproduction of bacteriophage, 582

Sabin, Albert B. Hemagglutination by viruses affecting human nervous system, 573
Shanes, A. M. Factors in nerve functioning, 611
Sowinski, R., 560
Special meetings, directory, 525
Swanson, Pearl P. Influence of non-protein calories on protein metabolism, 660
Symposium, Atlantic City meeting (1950)
Labeled antigens and antibodies, 553

Symposia, Cleveland meeting (1951)
Cytochemistry, 629
Demand and supply of energy for function, 602
Growth of bacterial virus in host cell, 582
Hemagglutination by viruses which do not specifically elute, 570
Utilization of protein, 660

TALMAGE, D. W., 553
Thermodynamic analysis of biological systems, 602
TOBIAS, C. A. Mechanisms of biological effects of penetrating radiations, 595

VIRUSES
affecting human nervous system, 573, 579
bacterial, growth and multiplication, 582, 585, 591
and hemagglutination, 573, 579
pneumonia, reactions in vitro, 570

WILLIAMS, CARROLL M. Biochemical mechanisms in insect growth and metamorphosis, 546

YAGER, ROBERT H. Hemagglutination by GDVII and Col SK, Col MM, Mengo encephalomyelitis and encephalomyocarditis viruses, 579
